

1. Requirement Statement: Design requirements for the next version of the Calibration Assistance Program (CAP)

2. Background

The initial version of CAP was made available to the RFCs in the beginning of FY 2001. Enhancements need to be identified and designed for the next major release of CAP. This design activity is identified as item 2.1.10 under the OHD/HL Annual Operating Plan (AOP). This AOP item is due for completion by the end of Q4.

Research and Development Project	Project Justification		
	Service Benefit	Science	other
Calibration Assistance Program (CAP): Design Enhancements for next release	1. Replace unsupported GRASS-based CAP 2. Enhance RFC calibration efforts. 3. AHPS Implementation		1. SPIG items for AHPS calibration pages 62-66. 2. OHD/HL Annual Operating Plan item 2.1.10- due Q4
